3. Reporting and accepting feedback

Cambodian partner CWCC issues detailed bi-annual reports that allow LOA to understand and review the day-to-day nuances of running the GATE program and its outcomes.

Any items reported in the bi-annual reports that raise questions lead to useful feedback and discussion between CWCC and LOA, with LOCAM.

Information about the programs LOA funds and their outcomes is shared with supporters in its quarterly newsletters, its annual report and on social media. Feedback and suggestions are welcomed.
